About This Content

Toposim Western Europe for FSX: Steam Edition provides LOD 11 / 19m Multi-LOD terrain mesh for the whole Western Europe region, improving the accuracy of the default terrain mesh and offering a marked improvement to the landscape profile.

VFR flying has never been more realistic with twice the default terrain elevation detail throughout the coverage area, bringing peaks to a sharp focus, as well as enhancing the subtle undulations of flatter regions.

Please note this pack corrects the default terrain mesh only, and does not include any textures.

This pack includes terrain mesh for the following countries:

- Portuguese Republic
- Azores
- Madeira
- Spain including Balearic Islands
- Principality of Andorra
- Canary Islands
- France
- Corsica
- Belgium

-
- The Netherlands
 - Germany
 - Czech Republic
 - Switzerland
 - Austria
 - Italy including Sicily and Sardinia
 - Malta
 - United Kingdom
 - Isle of Man
 - Ireland

Good game, but last cutscene is unskippable.

Absolutely unacceptable.

In addition, there is an achievement for completing the game without taking any damage. A fairly short game, and it sounds reasonable at first. Here's why it isn't:

About 2/3rd of the way through the game, an enemy suddenly jumps out at you. You have no way of knowing it's there. So unless you've memorized every enemy location, you're likely out of luck and will have to start over.

The depth perception in this game in general is wonky.

If you do get hurt, the game does not have a "New Game" option. You have to complete the game in full each time. Annoying as hell, and flat-out lazy on the part of the devs.

This game appears pretty good on the surface, but its numerous frustrating problems show that the developers really didn't care about making a quality title.. I first became aware of this novel by watching it streamed on Twitch. I was hooked from the beginning . It hooks you instantly as the soldier gets shot . There is some intrigue and humor sprinkled throughout . Please dont dismiss this review because I only have a little playtime on it . Im playing it again after watching Zaxtor99 doing it on Twitch. I would recomend this whole heartedly . I love the characters each in thier own way and really there are no good guys or bad guys in this it is all how you decide to go kind of like a choose your own adventure book from when I was a kid . I would recomend 10 out of 10. Double Kick Heroes is the shmup that made me wish I had better rhythm. The gameplay boils down to the same well-timed button presses you'd usually see in a rhyhtm game but there are enough touches to make this feel like more than a music game with a shmup skin. Lining up your shot is a challenge in itself – you have to steer your car up and down and the button presses correspond with weapons that are placed in different locations on the car. There is enough variety in enemy design, so far, that you have to account for what's happening on the shmup half of the screen while staying on beat.

The big selling point for me has been the presentation. In addition to the attractive pixel art, I love the world that's been built around the in-game music. Each track has fun metadata like the song titled "SURPRISE! YOU'RE UNDEAD!" with a genre of "Mike's Delight Rock". Some of my favorite genre names were: "Beach metal", "Tenacious Rock" and "Y2kore". Elmobo appears to be the composer of Double Kick's soundtrack and it sure is excellent. Through my research, I learned he worked on the Nightmare Creatures OST which was also impressive.

Definitely check out Double Kick Heroes for a fun, well polished experience. It's still in Early Access but there's about 4 hours worth of content and the different difficulty levels will keep you coming back.

. It's a fun game for those who'd like a life at sea, swimming with your friends, conquering all territory and slaughtering all who

stand in your way. It gives you an understanding about how life under the sea is no easy feat, and laser physics under water. If you want a game about imperialistic fish with laser-producing mouths, get this game. It's the game we never knew we wanted.. Great improvement over Spartan Assault.

New weapons.

New vehicles.

New enemies.

New levels.

Improved gameplay.

Great music.

Nice visuals.

I enjoyed it thoroughly.

Special operations, gold star requirements and other achievements are quite reasonable.

So, took me less time to complete 100% compared to the Spartan Assault, which is a good thing because that doesn't feel like a chore.

Overall I'll recommend this Halo Spartan series.

You'll surely enjoy these games, particularly if you are a Halo fan.. wtf is this??

how is in my library??

the worstest game ever

. Walk along a 5 minute path while vaguely deep text pops up.

Maybe if you really want the trading cards. After doing 4 playthroughs i can say that this is the best Choice of game so far that ive played.

Lots of variety between each playthrough ive done and i dont think ive done even half of the possible ways.

This should be the standard for future Choice of games.

Only problem i have as always with these games is that i wish they were longer, but for the price its good value.

9.5/10

A very awesome game! It is basically just a combination of Worms 3D and Worms 4 Ultimate Mayhem, but It is really the money worth. The multiplayer works correctly, and some old bugs are fixed. Also Worms 3D maps got new textures and are available for Multiplayer.

Strongly recommend to buy the game!. This is great!

Shooty bang bang!

Bright lights!

Throbbing soundtrack!

I seriously love all of the arcadey goodness.

<https://youtu.be/VajV7yIX0CSM>. It's \$0.99 so just buy it and ride a roller coaster. what else can I say... The sound doesn't work so go pipe in some Olivia Newton John or whatever blows your\u2665\u2665\u2665\u2665\u2665up. The old lady rode it and she fell out of the car and broke her\u2665\u2665\u2665\u2665 - just kidding.. 5.0 out of 10

[I played the demo weeks ago and quite enjoyed the experience and was left looking forward to the full release. Bought the game and since refunded after a couple of short sessions. As it turns for me at least the demo was enough of this game for me.](#)

[The linear level design and effectively scripted enemy makes replayability unappealing to me. More so as I found many of the enemy encounters unexciting. Open door, enemy camping, around corner, enemy camping, Shooting enemy stand still while taking shots every few seconds. Then you have the melee enemy who run at you in a straight line, it's not very challenging.](#)

[The gunplay is nicely balanced, along with a very appealing visual style and added humour. It's bug free and feels very fluid. All good things, you can tell there's a talented team behind this production. It's just the game itself has little to enjoy after a single playthrough as there isn't that much game to speak of. The game can be beat in under 2 hours on your first go, so to me that doesn't resemble good value.](#)

[I do understand new content has been promised, and until then I'll be happy to update my review.. Clumsy interface and boring combat. Set your brain to ♥♥♥♥. The scale of things to come.](#)

[Still remarkable playable even at 2m x 2m through utilizing wall glitches for dramatic effect.](#)

[This game makes you want to remodel your home badly.. Very thrilling and addicting, the game feels so good to play. Learning to drive well is rewarding, don't quit after 0.2 hours of playing.. This game has the potential to be really good, but as others have mentioned, the developers appear to have the work ethic of a narcoleptic sloth.](#)

[While the batting is, at times, quite good, the ball will frequently pass right through your bat, and the distance hit often bears no resemblance whatsoever to the force involved. At times, a defensive shot will race across the boundary, or balloon out for a six.](#)

[The leaderboard hasn't worked for months, and the developers are fully aware of this. Sadly they would rather sit back and trouser the money rather than make even the most minor changes to their game.](#)

[This is essentially a product abandoned at beta stage. It isn't super expensive, but buying this is essentially funding the sort of slacker developer who spends most of the day lying in bed getting high, while casually flipping an upraised middle finger at their mug customers, in favour of actually doing some legitimate work to fix their buggy product, and providing consumers with a reasonable level of quality.](#)

[I have mixed feelings over this game, as underneath the bugs and janky implementation, there is the basis of something good. It's just a shame that the devs can't be arsed to finish what they started. If there is any justice in the afterlife, these indolent wasters will be stripped naked, tied to an oversized wicket, and will face an eternity of neverending fast deliveries from Curtly Ambrose, pre "one bouncer per over" rules.](#)
